SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 8-K

CURRENT REPORT

Pursuant to Section 13 or 15(d)  
of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): October 3, 2022

Microvast Holdings, Inc.  
(Exact name of registrant as specified in its charter)

Delaware  
(State or other jurisdiction  
of incorporation)

001-38826  
(Commission File Number)

83-2530757  
(IRS. Employer  
Identification No.)

12603 Southwest Freeway, Suite 210  
Stafford, Texas 77477  
(Address of principal executive offices, including zip code)

281-491-9505  
(Registrant's telephone number, including area code)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock, par value \$0.0001 per share	MVST	The NASDAQ Stock Market LLC
Redeemable warrants, exercisable for shares of common stock at an exercise price of \$11.50 per share	MVSTW	The NASDAQ Stock Market LLC

**Item 7.01 Regulation FD Disclosure.**

On October 3, 2022, Microvast Holdings, Inc. issued a press release announcing its new energy division. A copy of the press release is attached hereto as Exhibit 99.1.

The information furnished in this Current Report on Form 8-K and Exhibit 99.1 attached hereto shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing.

## Microvast Announces New Energy Division

HOUSTON, Texas, USA, October 3, 2022 — Microvast Holdings, Inc. (NASDAQ: MVST), a technology innovator that designs, develops and manufactures lithium-ion battery solutions, today announced the launch of its new energy division.

Microvast Energy designs, develops and manufactures Battery Energy Storage Systems (BESS) that are co-located with solar solutions using Microvast's proven battery technology. The engineering, sales, marketing and customer care departments for Microvast Energy are headquartered in Northern Colorado.

Zach Ward has been appointed as President of Microvast Energy, with overall responsibility for the division's strategic direction, operations, product development, sales and key relationships. He is an industry veteran with more than 17 years of experience in the solar energy sector as a senior executive for several of the largest and most active companies in renewable energy. He has executed more than 20 GW of utility and distributed generation solar and 500 MWh of energy storage projects. Mr. Ward has been actively recruiting and hiring a dedicated team comprised of experienced industry personnel in preparation for the launch of the new energy division and roll out of Microvast's complimentary BESS solutions.

"We are excited to launch the new Microvast Energy division and support the rapidly growing energy storage market, with an initial focus in the United States. Our grid-scale BESS solutions provide critical infrastructure capable of addressing the gap between renewable energy supply and peak grid demand. With the recent passing of the Inflation Reduction Act and the construction of our new Tennessee manufacturing facility, we look forward to advancing clean and renewable energy initiatives. Additional details on Microvast's industry leading BESS solutions will be forthcoming," said Zach Ward, President of Microvast Energy.

Microvast's BESS solutions will incorporate battery cells and modules manufactured in Clarksville, Tennessee. The Clarksville facility features 650,000 sq. feet of manufacturing space on 85 acres and is expected to create up to 300 new jobs in the region. "We believe the Clarksville factory will contribute to the resilience of the domestic lithium-ion battery supply chain, create manufacturing jobs, and expand American battery capacity for the US power grid," said Shane Smith, Microvast's Chief Operating Officer.

Microvast is an established brand in the battery electric vehicle market, with more than 30,000 commercial and specialty vehicles in operation worldwide and over 16 years of experience in the design, development and manufacture of lithium-ion battery solutions. Microvast's new BESS solutions have been developed for grid-scale energy storage projects using the same proven technology as Microvast's EV batteries, which offer very high energy density, outstanding safety features, and unmatched performance.

"We expect the superior performance of our BESS solutions to exceed the expectations of our customers and put us in a leading position to take advantage of the benefits outlined in the Inflation Reduction Act," Ward said. "We expect the current electrification trends to further accelerate and keep us very busy."

### About Microvast

Founded in Houston, Texas in 2006 as a research and technology driven company, Microvast has evolved into a global leader in the design, development and manufacture of battery solutions for mobile and stationary applications. Microvast provides a broad portfolio of fast-charging lithium-ion battery solutions, with different chemistries, performance characteristics and price points to meet the diverse requirements of its customer base. Microvast is renowned for its cutting-edge cell technology and its vertical integration capabilities which extend from core battery chemistry (cathode, anode, electrolyte, and separator) to modules and packs.

Since placing its first battery systems into operation in electric buses more than a decade ago, Microvast has expanded its business to serve a broad range of commercial, passenger and specialty vehicles, including mining, material handling, and power vehicles and equipment, as well as grid-scale energy storage applications.

### **Cautionary Statement Regarding Forward-Looking Statements**

This communication contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, statements about future financial and operating results, our plans, objectives, expectations and intentions with respect to future operations, products and services; and other statements identified by words such as “will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimated,” “believe,” “intend,” “plan,” “projection,” “outlook” or words of similar meaning. These forward-looking statements include, but are not limited to, statements regarding Microvast’s industry and market sizes, future opportunities for Microvast and the combined company and Microvast’s estimated future results. Such forward-looking statements are based upon the current beliefs and expectations of our management and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are difficult to predict and generally beyond our control. Actual results and the timing of events may differ materially from the results anticipated in these forward-looking statements.
